Contact: kpmg - mail: social.kpmg@gmail.com

EDUCATION

Post Graduation
St Josephs College Bangalore

Courses

- Msc Big Data Analytics

ANALYTICAL SKILLS

Python Parametric Models Statistical Modeling Non-Parametric Models SQL Agile Methodology Tableau NLP Optimization Techniques Text Mining Bayesian Models Neural Networks

PROJECTS

Chat-Bot for college Using Deep Learning

- This Project is to help the fresher's and college most FAQS without connecting the office staff they can get information from college website. (These is not only for college to other domains which mainly helps in customers satisfaction) students who has queries regarding college and seniors experiences and reviews regarding college.

Customers Loyalty Analysis using RFM models

- This project is to find out loyal customers by checking the Recency, Frequency, and Monitoring. And we make not loyal customers to the loyal customers by sending mails like discounts, vouchers etc. This mainly helpful in online Shopping and many more.

Extracting useful Information from Pdf files

- . I got project on AI like I need to do Automation on pdf files using opencv package. And I need to convert pdf files to image using pdf2image package then from Image I need to extract specific text using ROI(Region Of Interests) and save the text data to the excel file. This process should be automated.

ACHIEVEMENTS

Mandal level champion
l Participated district level volley ball computation and achieved first prize .

Big Data Participant on Hadoop
l Participated in the Workshop on HADOOP BIGDATA at Interface 2020 by college.
